

Metamorphosis Exhibition 1994

Way back in 1994 we received an Arts Queensland grant to produce a series of shoe art pieces. We called this exhibition Metamorphosis and it was our first chance to really indulge our whims in a non-commercial way. We began to explore techniques like embossing, hand-painting and moulding of leather, woodcarving and the use of exotic leathers and feathers. This time really paved the way for many of our future signature designs.
